

How to manage my Internet usage

Looking for a specific topic?

I want to know more about:

-  [How to view your Internet usage details](#)
-  [Tips to reduce data usage with Apple TV](#)

Want to learn how to calculate the amount of data you need?

Visit our [usage calculator](#) for more information.

About Internet usage

Tracking your usage

Controlling your usage

Estimating your Internet usage

What do you use the Internet for?

Tell us how your household typically uses the Internet and we'll recommend a data plan.

Low usage

Occasionally browsing the web, getting news and sports updates, banking online, and chatting and exchanging photos with friends and family.

20 GB

Medium usage

One person streaming music, gaming online, exchanging photos and watching TV shows or movies.

100 GB

Multiple people or a family streaming music, gaming online, exchanging photos, streaming movies, watching YouTube and downloading shows.

300 GB
